

How to Submit Favorites

1. Add images you like or would like to submit as favorites by clicking the circle that says “select” that appears when scrolling over the image in thumbnail mode. Once you have selected the images you would like there should be a link at the top of the page that has appeared that says “add to favorites”

2. In the top right corner you will see the name of your favorites folder. Please select this or you may have to select “edit” located just underneath the favorites folder when you scroll your mouse over it.

3. Click “send to” to choose to share your favorites with a friend or with the photographer
